

The Area Plan

Where do you fit?

John Kolb,
Supervising Hazardous Materials Specialist
January 15, 2009

The San Diego County Operational Area Hazardous Materials Area Plan

Developed pursuant to Health and safety Code,
Division 20, Chapter 6.95, section 25503.

Designed to integrate the operational activities of
Emergency services Organizations and Hazardous
Incident Response Team (HIRT) into the on-scene
operational procedures for the local State or Federal
agencies who have the primary responsibility for the
emergency within the jurisdiction.

Elements of the Area Plan

- Proposed Area Plan
- Emergency Response Procedures
- Pre Emergency Planning
- Notification and Coordination
- Training
- Public Safety and Information
- Supplies and Equipment
- Incident Critique and Follow-up

Today's Focus

Pre Emergency Planning And Regional Coordination

Pre-Emergency Planning

- All cities within the county have a facility that is required to do a Risk Management Plan.
- Facilities have Risk Management Programs in place, however very little coordination is conducted.
- Coordination is needed with:
 - Local fire agency
 - Emergency responders
 - The community
